

What is claimed is:

1. A refrigerator comprising:  
an inner case including an inner sheet for defining an  
5 inner space of the refrigerator and an outer sheet formed on  
the inner sheet, the inner sheet containing nanosilver  
particles therein.
2. The refrigerator of claim 1, wherein the inner sheet  
10 and the outer sheet are bonded to each other by a double  
extrusion molding technique.
3. The refrigerator of claim 1, wherein the nanosilver  
particles have a size of about 15~300 nm and a concentration  
15 of about 1~500 ppm.
